RELEVANT WORK

- **Marios Papachristou**, Longqi Yang, Chin-Chia Hsu, "Leveraging Large Language Models for Collective Decision-Making". *Under review.* 2023.
  [preprint]
  - Work done during my internship in summer 2023 at Microsoft's OAR with Chin-Chia Hsu, and Longqi Yang focusing on enchancing productivity in organizations.
  - We leverage LLMs for collective decision making in an organization with focus on meeting scheduling (e.g. for MS Outlook).
  - LLMs are used to balance preferences of the individuals and propose mutually agreeable plans.
  - Conduct large-scale user study using **synthetic users** (simulated by LLMs) to assess the system and save costs and time compared to running a user study with real users.
  - Validate the results of the synthetic study with smaller scale user study with real humans.
